KIDNEY CARE IN OREGON: SENATE DISTRICT 4

Kidney disease affects an estimated 37 million people in the United States, and approximately 90% of those with kidney disease don't know they have it. With support from elected officials and the community, we can reduce kidney disease diagnoses, improve patient outcomes and pioneer new research that will inform best practices and innovative treatment methods for future generations. All data below is reported at a county level. More information and links to data sources are available at NWKidneyCouncil.org.

Senate District 4 Dialysis Footprint

5 Dialysis Centers

9 Nephrologists

666 ESRD Patients

Senate District 4 Prevalence of CKD

20.32%

The average prevalence rate for
the counties in Senate District 4

End Stage Renal Disease (ESRD) is the 5th and final stage of Chronic Kidney Disease (CKD). Individuals with ESRD need dialysis or a kidney transplant to survive.
