# KIDNEY CARE IN WASHINGTON STATE: HOUSE DISTRICT 4

Rep. Robert  
Chase

Kidney disease affects an estimated 37 million people in the United States, and approximately 90% of those with kidney disease don't know they have it. With support from elected officials and the community, we can reduce kidney disease diagnoses, improve patient outcomes and pioneer new research that will inform best practices and innovative treatment methods for future generations. All data below is reported at a county level. More information and links to data sources are available at [NWKidneyCouncil.org](https://NWKidneyCouncil.org).

## House District 4 Dialysis Footprint

**8** Dialysis Centers

**29** Nephrologists

**1,097** ESRD Patients

## House District 4 Prevalence of CKD
