# KIDNEY CARE IN OREGON: SENATE DISTRICT 29

Sen. Todd Nash

Kidney disease affects an estimated 37 million people in the United States, and approximately 90% of those with kidney disease don't know they have it. With support from elected officials and the community, we can reduce kidney disease diagnoses, improve patient outcomes and pioneer new research that will inform best practices and innovative treatment methods for future generations. All data below is reported at a county level. More information and links to data sources are available at [NWKidneyCouncil.org](https://NWKidneyCouncil.org).

## Senate District 29 Dialysis Footprint

**4** Dialysis Centers

**4** Nephrologists

**332** ESRD Patients

## Senate District 29 Prevalence of CKD

**17.07%**

The average prevalence rate for  
the counties in Senate District 29

End Stage Renal Disease (ESRD) is the 5th and final stage of Chronic Kidney Disease (CKD). Individuals with ESRD need dialysis or a kidney transplant to survive.
